

Los Angeles Family and Neighborhood Survey, Wave 2 (L.A.FANS-2)

ROSTER MODULE

Notes

- This is the first questionnaire administered in each panel or sampled New Entrant household.
- Roster respondent can be any adult age 18 and older who lives in the household. If multiple adults are available in a given HH, preference should be given in choosing the roster respondent to the W1 RSA and PCG. If neither is available, preference should be given to the W1 RSC (if ≥ 18) and SIB (if ≥ 18), if available. Otherwise interview any available adult.
- Set UR and CR indicators for whether Update roster and Current roster are to be done. We need a flag in the Current Roster that indicates whether or not each individual is also listed in the Update Roster or not.

Preloads

- Wave 1 Roster (names, sexes, roster ids, FT / PT resident status, ages, and birthdates where available of all residents from W1 roster; flags for whether person was RSA, RSC, SIBW1, PCGW1, or other). Note roster list should also include any new names (i.e., name changes) we know about from the ITS or tracing operations as well as original W1 names
- Whether sampled RSA, RSC, PCGW1, or SIBW1 were interviewed in W1
- Type of household (from case management system). See list for types of household in question R-UA1 below

Lists created during update roster

- Current roster list (The current roster list is a list of all current residents in the HH. For panel HHs, panel respondents will be placed on the current roster list if they currently live in the HH.)
- Missing person list
- Deceased person list

Questionnaire formatting key

- **Black bold:** Question numbers
- Black normal: Interviewer to read question text
- BLACK UPPER CASE: Interviewer and programming instructions
- ***BLACK BOLD ITALIC UPPER CASE:*** Comments
